

## **BICORP (La Canal de Navarrés) Ecomuseum**

Participating institutions: Town Council of Bicorp  
General Directorate of Cultural Heritage of Valencia  
Museu Valencià d'Etnologia (Valencian Museum of Ethnology)

The Bicorp Ecomuseum is one of the most ambitious projects that the Museu Valencià d'Etnologia has taken part in. It represents the integral management of the cultural and natural heritage of the municipality in order to collaborate in the sustainable growth of this town in the La Canal de Navarrés region. The Museum has drafted the project and has organised information sessions and technical conferences with the inhabitants of Bicorp to explain the scope of this complicated action to them. The first of the major actions of the project was the creation of the Heritage Interpretation Centre (with Spanish initials CIP), whose function is to act as the backbone of the Ecomuseum, around which all the activities foreseen will be coordinated: routes, workshops, exhibitions, guided tours, etc. It will also offer all the information necessary to have a better understanding of the rich and varied heritage elements of Bicorp.

The Ecomuseum CIP is located in the city centre and has the following services:

- Information
- Exhibition on Cave Art
- Exhibition on Ethnological Heritage
- Exhibition on Paleontological Heritage (under preparation)
- Guided tours
- Sale of local products
