

**GENOVÉS (La Costera)**  
**Museu de la Pilota (Pelota Museum)**

IParticipating institutions: Town Council of Genovés  
Museu Valencià d'Etnologia (Valencian Museum of Ethnology)

The Museu de la Pilota of Genovés and the Museu Valencià d'Etnologia have signed a collaboration agreement whereby both institutions agree to carry out joint actions in different fields: assignment of pieces, co-production and exchange of exhibitions, publications and their dissemination. The Genovés museum is the first museum exclusively devoted to our autochthonous sport. The permanent exhibition takes us through the history of Valencian pelota, its modalities, most emblematic players, play areas and the manufacture of balls. It also has material related to the practice of this sport elsewhere in the world. The town trinquete or court can be seen from the museum, which is especially interesting. A game can also be played in "la galotxeta" (small-sized trinquete).
