

## PUEBLA DE SAN MIGUEL (El Rincón de Ademuz) “El Cubo” Museum of Ethnology

Participating institutions: Town Council of Puebla de San Miguel  
Museu Valencià d’Etnologia (Valencian Museum of Ethnology)

The remodelling of the permanent exhibition of this museum was one of the first collaborations with local museums. The spaces and the objects were re-distributed, exhibition supports and information panels were put into place. On the request of the local council, the collection of objects corresponding to traditional culture was created. This covers agriculture, pasturage, as well as domestic life, the exploitation of the woodland and the transformation of agricultural products. The visit to the old wine “cubo” (press) is of special interest.

**Visits:** contact the town council
